Course Description

In this course students will develop academic skills through the study of basic toxicology. With historic and present day “toxic tales,” we will explore some fundamental concepts of toxicology such as dose response, routes of exposure and factors influencing toxicity. In this context, students will develop skills for academic success, including higher order thinking skills such as analysis, synthesis and evaluation; presentation skills; study strategies; time management; personal accountability and resiliency.

Course Objectives

- Promote study skills and learning strategies necessary for success in STEM courses. This will include: understanding one’s learning style, reading textbooks, note taking, time management and organization, personal accountability, resiliency, and connecting to resources.
- Provide an introductory overview of the fundamentals of toxicology. By acquiring some familiarity to the basic building blocks of toxicology, students will be able to build upon their interest and knowledge in subsequent courses.

Grading

This course includes lectures and group discussions on study skills. Grades are based on quizzes, study skills assignments, class participation, a class presentation and the final exam

Quizzes 30%

Study skills assignments and class participation 40%

Presentation 15%

Final exam 15%

Class presentation

Students will make short presentation on historical or current topic “hot topic” related to toxicology. This may be something that has appeared in the news or scientific literature. **Do not pick a toxicant that was discussed in class (arsenic, mercury, nicotine, or lead).** The presentation must include:

- background of the toxicant
- how people are exposed
- evidence from scientific literature
- Significance of this event to the field of environmental health/toxicology : eg. biological effects, routes of exposure, risk assessment, policy, environmental /social justice

Important Policies & Resources

Academic Integrity

Students at the University of Washington (UW) are expected to maintain the highest standards of academic conduct, professional honesty, and personal integrity.

The UW School of Public Health (SPH) is committed to upholding standards of academic integrity consistent with the academic and professional communities of which it is a part. Plagiarism, cheating, and other misconduct are serious violations of the University of Washington [Student Conduct Code \(WAC 478-121\)](https://apps.leg.wa.gov/WAC/default.aspx?cite=478-121)  (<https://apps.leg.wa.gov/WAC/default.aspx?cite=478-121>). We expect you to know and follow the university's policies on cheating and plagiarism, and the [SPH Academic Integrity Policy](https://sph.washington.edu/students/academic-integrity-policy)  (<https://sph.washington.edu/students/academic-integrity-policy>). Any suspected cases of academic misconduct will be handled according to University of Washington regulations. For more information, see the University of Washington [Community Standards and Student Conduct](https://www.washington.edu/cssc/)  (<https://www.washington.edu/cssc/>).

Access and Accommodations

Your experience in this class is important to me. It is the policy and practice of the University of Washington to create inclusive and accessible learning environments consistent with federal and state law. If you have already established accommodations with Disability Resources for Students (DRS), please activate your accommodations via myDRS so we can discuss how they will be implemented in this course.

If you have not yet established services through DRS, but have a temporary health condition or permanent disability that requires accommodations (conditions include but not limited to; mental health, attention-related, learning, vision, hearing, physical or health impacts), contact DRS directly to set up an

Access Plan. DRS facilitates the interactive process that establishes reasonable accommodations.

Contact DRS at disability.uw.edu  (<https://depts.washington.edu/uwdrs/>).

Religious Accommodations

Washington state law requires that UW develop a policy for accommodation of student absences or significant hardship due to reasons of faith or conscience, or for organized religious activities. The UW's policy, including more information about how to request an accommodation, is available at [Religious Accommodations Policy \(https://registrar.washington.edu/staffandfaculty/religious-accommodations-policy/\)](https://registrar.washington.edu/staffandfaculty/religious-accommodations-policy/)  (<https://registrar.washington.edu/staffandfaculty/religious-accommodations-policy/>). Accommodations must be requested within the first two weeks of this course using the [Religious Accommodations Request form \(https://registrar.washington.edu/students/religious-accommodations-request/\)](https://registrar.washington.edu/students/religious-accommodations-request/)  (<https://registrar.washington.edu/students/religious-accommodations-request/>).

Inclusion & Diversity

Diverse backgrounds, embodiments and experiences are essential to the critical thinking endeavor at the heart of University education. In SPH, we are expected:

1. To respect individual differences, which may include, but are not limited to, age, cultural background, disability, ethnicity, family status, gender, immigration status, national origin, race, religion, sex, sexual orientation, socioeconomic status and veteran status.
2. To engage respectfully in the discussion of diverse worldviews and ideologies embedded in course readings, presentations and artifacts, including those course materials that are at odds with personal beliefs and values.
3. To encourage students with concerns about classroom climate to talk to their instructor, adviser, a member of the departmental or SPH EDI Committee, the Assistant Dean for EDI, or the program's director.
